NutraDisc®

TESTIMONIAL

Dear Colleagues,

We all know about Anabolic Labs and their products. Here is my personal testimonial to their newest product NutraDisc®. Some of you know that I have participated in several triathlons over the past few years. What you may not know is 2 years ago I had a severe car accident and have been on a downward spiral with back pain and DDD and facet joint pain. I get adjusted; I exercise and focus on core and spinal stability. A year ago I crawled to the bathroom and barely made my way to the office that day. Then began the NSAIDS. First 2-3 a day and then 2-3 every 4 hours, until my stomach said No More! I tried many of the products that we all see in the advertisements and then read the research. I decided to try it. By the end of the first week I felt much better. I will not give in to chronic back pain and with NutraDisc® I don't have to. Please listen to this webinar. By the way, I benefit in no way by you supporting Anabolic Labs. I am not paid, reimbursed or given anything for writing this. The webinar info is below.

Sincerely,
Dr.Christopher G. Cianci, DC CCSP
